## CLOSED ON HOLIDAY.

Thursday next, May 24th,  
is a public holiday. All the  
places of business in Stony  
Plain will be closed.

## LOCAL NEWS.

Rev H J Boettcher, Ed-  
monton, was a visitor in Stony  
on Saturday.

Rev A Rehwinkle preached  
the sermon at the local Luth-  
eran church on Sunday last.

Mr R A Patrick, who left  
for Nebraska last summer, is  
back in this district, on a  
visit.

Sommerfield & Mayer have  
sold a new Chevrolet sedan to  
Mr John Eichenlaub.

Another new barber shop  
popped open on Main street,  
on Saturday morning last.  
A dispatch from the head  
man of the International Bar-  
ber Students' Association says  
no new barber shops will be  
opened in Stony until after  
Dominion Day.

Both passenger trains from  
the west on Monday morning  
were from five to six hours  
late, owing to an accident on  
the line near Red Pass.

R C services will be held  
in the Town Hall on Sunday  
next at 9 a.m.

If your eyes bother you, or  
you suffer from headaches,  
why not have your eyes at-  
tended to by an expert? M M  
Mecklenburg, eye specialist,  
will be in Stony Plain on Fri-  
day, June 1st.

## New Building for Geo. Clarke

The Canadian Bank of Com-  
merce has taken out a per-  
mit for the erection of a new  
\$30,000 bank building for  
the branch at Strathcona.—  
Strathcona News.

## Addition to Service Garage.

Owing to the big increase  
in the volume of their busi-  
ness, as a sign of the great  
popularity of the new Chev-  
rolet autos, Sommerfield &  
Mayer have in course of erec-  
tion an addition to their pres-  
ent premises. The structure  
will cover the entire ground  
area. In this will be put on  
display the new sedans and  
coaches, a shipment of which  
is arriving practically every  
week.

## Tennis Club's Annual Meet

A meeting was held Wed-  
nesday evening for the pur-  
pose of reorganising the local  
tennis club. A goodly number  
of players was present. The  
following officers were elec-  
ted—

Pres., Dr. Outway.  
Sec. treas., Roy Alton  
Executive Committee, F W  
Yeats, R Harrison, and W J  
Wray.

Membership fees were set  
as follows: Men \$3, ladies \$2,  
students over 16 \$1, over 16  
50 cents.

One court is ready to play  
on now; the other will be fin-  
ished in a short time.

GET IT AT

**W**HETHER you operate one truck or a  
fleet, you will save time and money by  
turning to Chevrolet for all light truck re-  
quirements. Because the Chevrolet Commercial  
Chassis is providing the lowest ton-mile cost in  
the commercial car field to-day. This unparal-  
leled economy is due to an amazing combination  
of quality features . . . powerful valve-in-  
head engine, three-speed transmission, single-  
plate dry disc clutch, complete electrical system  
. . . and to Chevrolet's rugged construction,  
heavy channel steel frame, sturdy cross-mem-  
bers, massive, banjo-type rear axle, extra long  
and heavy steel springs. You never realized that  
so much truck value could be obtained at so low  
a price. The Chevrolet Commercial Chassis is  
adaptable to a wide variety of body types. Let  
your Chevrolet dealer help you select the style  
you need.

The G. M. A. C. . . . General Motors' own deferred  
payment plan affords the most convenient and economi-  
cal way of buying your Chevrolet on time.

## For Humanity!

The world scroll upon which is inscribed the names of men and women who have rendered distinguished service to the cause of humanity contains no name more worthy of such recognition than that of Henri Dunant, the centenary of whose birth in Geneva, Switzerland, was observed throughout the world on May 8th, of this year, and who lived to the ripe old age of 82 years.

What service did Henri Dunant render to mankind entitling him to this honor?

As a young man of 31 years, Dunant, author and philosopher, was travelling for pleasure in the summer of 1859 in Northern Italy, and happened to arrive in the neighborhood of Solferino just at the conclusion of the battle which is known by that name, and which was waged between the Austrians under Francis Joseph II. and the Allied French and Sardinians. The opposing forces were of about equal strength, the total of men engaged being something over 300,000. The armies met in the early morning and fought a sanguinary conflict until about two o'clock in the afternoon, when the Austrians were forced to retire. For so short a battle the losses were large, totalling in killed, wounded, and missing almost 40,000.

Upon such a scene of carnage came Henri Dunant accidentally in the course of his journey for pleasure. Suffering and dying soldiers left on the field filled the air with their cries and groans, but there was no organized care for them. His deepest sympathies stirred for these fellowmen, who but a few hours before were in the pride of health and strength, Henri Dunant organized the neighboring villagers who did what little they could to cope with the gigantic task of ministering to those whose lives might still be saved.

But Henri Dunant did more. The vivid and terrible scenes he had witnessed impressed themselves upon his mind that a year or two later he published his experiences in a small volume entitled "Un Souvenir de Solferino" (A Remembrance of Solferino), in which he advocated the formation of voluntary organizations to aid the army authorities in carrying out the national obligation of caring for the sick and wounded in future campaigns.

The result was the organization of the great world-wide Red Cross Society.

In this day and generation, with the events of the Great World War still fresh in mind, it is unnecessary to attempt any review of this international neutral, humanitarian organization. Sufficient it is to say that probably no other organization in the world's history has a finer record of achievement, or so completely commands the confidence and support of all peoples. The Red Cross flag and insignia is known and respected everywhere as a sign of absolute neutrality among warring nations, and the highest standard of self-sacrificing service to all suffering humanity.

Originated for service to the sick and wounded of armies in time of war, its amazingly efficient organization and outstanding service during the Great War so impressed the statesmen of the world confronted with all the difficulties of after-the-war reconstruction of a well-nigh bankrupt civilization, that the Peace Conference at Versailles unanimously called upon the Red Cross throughout the world to remain organized and active, and undertake a comprehensive peace-time work among the civilian populations.

To the Red Cross, therefore, the creation of Henri Dunant, was accorded the distinction of being the only organization, apart from Governments, recognized in the Covenant of the League of Nations, with the solemn obligation imposed on all nations joining the League to encourage and promote the organization of voluntary national Red Cross Societies, having for their object "the promotion of health, the prevention of disease, and the mitigation of suffering throughout the world."

Today throughout the world, the Red Cross with its tens of millions of members, including all races, languages and creeds, is engaged in its mission of mercy. When Nature in a violent mood brings disaster upon a small community, or a Province, or a whole nation, the Red Cross is the first on the spot. Should an epidemic of disease break out, the Red Cross nurses and voluntary workers, inspired by the heroic and humanitarian ideals of Dunant and Florence Nightingale, are active in the alleviation of suffering. Unceasing, too, is the Red Cross educational campaign in the promotion of health and the prevention of disease. And should war again inflict ranking, the Red Cross will be found better organized and stronger than ever to assume the burden thus imposed upon it.

In the galaxy of the world's great humanitarians, Pasteur, Jenner, Lister, Florence Nightingale, William Booth, Curie, and others, the name of Henri Dunant shines brightly, while the sympathy which prompted his action on the bloody field of Solferino, and the inspiration leading to his conception of a great neutral volunteer organization in the cause of suffering humanity, continues to call forth the most splendid self-denial and service under the banner of the Red Cross.

## When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 60 years since its invention. It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### Textile Plant For Edmonton

**Mill At Edmonton Will Convert Western Wool Into Fabrics**  
The establishment of a plant in Edmonton by the Western Canada Woolen Mills, Ltd., is contemplated during the coming summer, according to an announcement made recently. This project has been under an exhaustive series of technical experiments. The mill production has been scheduled to include a range of fabrics including blankets, light and heavy tweeds, overcoatings, velours, flannels and other types of cloth for which western wool is suited.

### BABY'S OWN TABLETS THE HOME DOCTOR

Baby's Own Tablets meet all the need that exists in every home where there are young children. They are a laxative, but do not gripe. They are soothing, but do not contain one particle of opiate or other ingredient that can in any way do the slightest harm to the most delicate child.

Baby's Own Tablets reduce fever, relieve colic, banish constipation and indigestion, check diarrhoea, sweeten the stomach and allay the irritation that accompanies the cutting of teeth. They quiet the nerves and promote healthy sleep and repose. In fact they are as good as a doctor in the home, and once a mother has used them for her little ones she will use nothing else. Thousands of mothers bear testimony as to this. Among them is Mrs. H. J. Pells, Man., who writes:—"I was told to try Baby's Own Tablets by a friend who had used them for her little ones and said she could not do without them. After using them for my baby boy I quite agree with her. I can certainly think they are the finest medicine in the world for little ones."

Baby's Own Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Faces Carved On Building

**Likenesses Of Men Prominent In Chemical World Appear On New Structure**

Faces of living men are carved in stone on the new million-pound building of the Imperial Chemical Industries nearing completion at Westminster Exchange.

One of the faces is that of the head of the concern, Sir Alfred Mond. All the other carvings are said to be excellent likenesses of many men prominent in the chemical world.

The sculpture around the building also includes figures of peacocks, which are said to be there as a symbol of incorruptibility, following the ancient tradition that the flesh of the peacock is incorruptible.

**Nation-Wide Fame.**—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on also its healing power is readily absorbed, and it can also be taken internally.

### Film Industry In Calgary

Production of the first of a series of British films for use under Great Britain's quota law will be started in Calgary this month, May 1. Local capitalists, including P. Burns and A. E. Cross, are backing the project. Neal Hart will be the director of the first picture, which will be western in its flavor.

Worms feed upon the vitality of children and endanger their lives. Simple and effective remedy is Mother Graves' Worm Expeller.

### Buying Registered Seed

**Saskatchewan Farmers Have Purchased Much More This Year**  
The Saskatchewan Registered Seed Association advises that farmers throughout the province have purchased more registered seed this year than in any year in the past and that they are becoming more interested in good seed. There has been a heavy movement of tractors from United States points to points in Saskatchewan this spring and the sale of motor trucks has greatly increased. Evidently farmers are becoming more and more interested in mechanical power.

During the war, Germany raised 12,000,000 men.

### Appointment Is Popular

**New Inspector Of Taxation In Saskatchewan Has Had Wide Experience**

Hon. George Scott is to be congratulated upon his appointment as Inspector of Taxation in Saskatchewan. This is an exacting position, but Mr. Scott has many qualifications which would seem to assure that he will measure up to its demands. The new appointee has had wide experience in educational life, in business life, in agricultural life, and in public life. All this will be helpful to him in his new post.

Hon. Mr. Scott will be missed in the Legislative Assembly, where as member for Arm River he rendered conscientious and able service but also in behalf of his constituency but also in behalf of the Province as a whole. Whether as Speaker of the House, or as a private member, he constantly enjoyed the respect and regard of members of all political groups.—Regina Leader.

Heat naturally flows from a hot body to a colder one even in the electric refrigerator.

The promontories on each side of the Strait of Gibraltar are known as the Pillars of Hercules.

**Will Construct Power Plant**  
Construction of the first unit of a big power plant in the Estevan coal field is announced by the Montreal Engineering Company—a \$750,000 project which will represent the first actual development of power in Saskatchewan by a central generating station for distribution over a wide territory.

## FIREPROOF Farm Construction

**GYPROC Fireproof Wallboard** is used in the building of elaborate country homes equally as much as for garages, grain bins, poultry houses and barns. For repairs and alterations—for remodelling—for partitioning off extra rooms—it is the most economical and satisfactory wallboard on the market.

Gyproc protects from cold, heat, fire, sound and vermin—yet costs less than materials which do none of these things. Quick and easy to apply. It can neither crack, warp, bulge or shrink. By filling the joints with Gyproc Joint Filler you get a smooth, flat, air-tight surface through which fire, heat, cold and sound cannot penetrate.

Gyproc comes in broad, light, ceiling-high sheets of gypsum rock. Takes any decoration—and is especially suitable for Alabastine. Fuel saved by the insulating qualities of Gyproc will alone pay for the cost within a few seasons.

Clip and fill in coupon for interesting free booklet.

## New Developments In Method Of Harvesting And Threshing Will Revolutionize Farming

More marked progress in the development of methods of harvesting and threshing grain applicable to the prairies of Western Canada has been made in the past two or three years than in the previous half century since the first stream of settlers crossed the Red River. The new methods of combined reaping and threshing are resulting in great economies in labor and money. When first introduced the combine or reaper-thresher was considered to have limited applicability and that principally to the drier sections of the country. Nevertheless the number of these machines in use has increased very greatly and they are spreading over a much broader area than was thought possible.

A supplementary machine introduced on the prairies for the first time last year, says the Department of the Interior, through its Natural Resources Intelligence Service, is expected to further extend the field for direct harvesting and threshing without the need for the expensive and time-consuming operation of stroking the grain. The new windrow method is calculated to advance materially the time at which harvesting can be commenced as compared with the combine alone. In fact it is claimed by those who have tried it that cutting can be commenced as soon as with the binder. The feature of the new machine is that the stubble is cut high and slightly turned over forming a shelf on which the grain is laid out in windrows to dry. With the air currents passing underneath curing is rapidly effected. In two to four days of good drying weather the grain is ready for threshing and with a pick-up attachment the combine is then used to finish the operation, delivering the threshed grain to the tank wagon. Later in the harvesting season the grain in other fields may become sufficiently matured for direct combining without first windrowing.

The windrow machine it is claimed has removed all the disadvantages of the combine. If so the new methods may be expected to quickly spread across the prairies and revolutionize the harvesting of grain in Western Canada. Nowhere in the world is there land more suitable to large scale methods of harvesting and the resultant economies may be expected to further enhance Canada's position as the premier wheat exporting country of the world.

### Vancouver Island Strawberries

#### An Exceptionally Heavy Crop To Be Gathered This Year

A heavy crop of strawberries is in prospect on Vancouver Island, B.C., this year. A press despatch from Vancouver states. The Gordon Head and Keating crop is expected to pour hundreds of thousands of dollars into the farmers of Saanich this summer as a reward of persistent adherence to modern cultivation and weevil control methods. While the acreage planted to strawberries shows substantial increase, anticipations of a bumper crop rest chiefly upon the remarkable condition of the plants, which are in better shape than has been known for many years.

Alexander the Great died of a fever in Babylon in the year 323.

A "mechanical man" that plays chess and automatically responds to the moves made by its human opponent has been invented by a Spanish mathematician.

### Boy World Explorer

That bright-eyed goddess Adventure of whom everyone from the youngest to the oldest has dreamed has beckoned to Russell Dickson, a Winnipeg boy, and will lead him on an adventurous path around the world. He has been chosen by Lowell Thomas, world-famed explorer and lecturer, to go with him as secretary of his next expedition into the jungles of Africa, to the South Sea Islands and into practically every corner of the globe.

Dixon, who is 20 years of age, has been employed for the past three years in the offices of the Canadian Pacific Railway at Winnipeg. When Lowell Thomas was lecturing in the city and made a statement to the press that he was looking for a Canadian boy to go with him in December, Russell got busy and landed the job, that will mean a year or so of rare adventure. First class shorthand knowledge, and an aptitude for photography and mechanics were some of the most important requirements for the position. Satisfying Thomas along these lines, an agreement was reached.

The fortunate Winnipegger will, next month, leave the Press Department of the Company where he has been employed, and join Mr. Thomas at his home in the Berkshire Hills. From this point the start will be made about December on the great adventure that will carry him into many of the little-known corners of the globe.

#### Developing Tar Sands Deposits

The Hudson's Bay-Marland Oil Company has made application for exclusive rights to prospect a very large area in the Alberta tar sands region in Northeastern Alberta. Negotiations are now in progress between representatives of the company and the Federal Government. This company will this year spend \$50,000 in the erection of plants for the extraction of oil from the sands.

### BRITAIN'S HIGH COMMISSIONER TO CANADA

Sir William H. Clark, K.C.B.I., C.M.G., who has just been appointed Great Britain's first high commissioner to Canada, commenced his career in the public service as a clerk in the board of trade department of the government in 1899.

## New Golf Course At The Banff Springs Will Be Unique Among The Golf Courses of the World

Canada will shortly possess one of the finest and most beautiful golf courses in the world. Assisted by an array of skilled workmen Stanley Thompson, of Toronto, the internationally known golf architect, is making rapid progress with the construction of the new championship golf course which is being built for the Canadian Pacific Railway Company, at Banff, Alberta, and present indications are that the course will take its place at the top of the list of golf links on this continent whether inland or seaside.

Situated on the roof of the world and surrounded by the most magnifi-

tude of this recent undertaking of the railway. To make the fairways, greens, and rest areas of rock had to be quarried. Rivers, too, had to be bridged and soil brought by the trainload on which to grow the turf. It will be readily understood therefore that the cost will run into a big figure, but the Company will have the compensation of knowing that the construction of this latest championship course will act as a wonderful filip for Canadian golf links as a whole, as thousands of the best known golfers of the world will be drawn to this golf course perched as it is between the skies. The greens are be-

A view of a completed portion of the links set in wonderful surroundings under the guardianship of the mighty snow-capped mountains.

cent mountain scenery imaginable, the Banff Springs will be unique among the golf courses of the world. It will be of full championship length, the plans calling for a yardage of 6,640. There will also be two other sets of tees with a respective yardage of 6,315 and 6,045. These tees will be of grass and will be in play the whole time, the bunkering having been so carefully worked out that each set of tees presents practically a different course. The fairways, too, will be doubly wide, there being two distinct routes to each hole.

Noted golfers, who have viewed the construction work have been astounded with the thoroughness and magni-

ing built along the lines of the famous "Langara" green at South Vancouver. They will be extra large and will be sown throughout with creeping bent grass.

Contrary to what one would expect in the mountains, there will be very little climbing to be done, in fact the grades will be easier than on most courses. Nine holes of the new course will be open for play during the present season. Combined with nine holes of the old course this will mean that visitors this year will be able to enjoy a full round of eighteen holes amidst perfect surroundings. Early in May, 1929, the new championship course will be thrown open.

### VETERAN RETIRES

W. A. Brown, General Superintendent of the Canadian National Railways, Edmonton, who, after 50 years of continuous railway service in Canada, retired on superannuation on May 1. In point of active service Mr. Brown is the oldest railwayman in Canada, west of the Great Lakes. He was railroading when there was no steel laid west of Portage in Prairie. He has been General Superintendent at Edmonton since 1911.

#### Exported Carload Of Money

For the first time in the history of bookkeeping in British Columbia, one bookkeeper in the Okanagan Valley has exported a full carload of money from his own home. His 260 colonies gave him an average of 178 pounds of money per colony.

## Small Town Papers

By FRANK PARKER STOCKBRIDGE  
Represented by special permission from Saturday Evening Post, Montreal, 1925.  
The Curtis Publishing Company, Philadelphia.

(Continued.)  
Awards, like those, and the others which the association gives annually, are doing a great deal to stimulate country editors to produce better papers. The Brookings Register, in South Dakota, for example, holds the current award for the best front page. That puts the Eastern publishers on their mettle; but it was an Eastern paper, the Graphic, of New-nor, Massachusetts, which won first prize in the association's advertising contest, while the News, of Montevideo, Minnesota, took first place as an example of good newspaper production.

These awards are powerful influences for the betterment of the country press, the others agreed, but two or three spoke simultaneously of the schools of journalism as perhaps the most potent factor of all in the progress of the small-town weeklies.

"You didn't think that all this flock of boys and girls who are being graduated every year from the schools of journalism were getting city jobs, did you?" asked Bert Mills, as I expressed surprise. "I don't know just how many there are—somewhere between thirty-five and fifty universities, I believe—which have full-fledged journalism schools. I noticed that Prof. Willard Hiley, dean of the Wisconsin University school, said the other day that there were more jobs than there are graduates to fill them, and I believe he's right. And many of these schools are concentrating on the problems of the small-town weekly rather than on the daily press. Indiana State, for example, pays almost no attention to daily journalism, but when a boy or girl is graduated there he or she can always find a job on a country weekly. It won't be long now, perhaps in our own time, when the country editor who is not a university graduate will be as rare as a bird as the old-time tramp printer is today."

That turned the talk to the modern counterpart of the tramp printer, the real journeymen, who drifted from town to town and was the main reliance of the old-fashioned country editor. "The machine operator—usually a machinist as well as an operator and often an all-around printer as well—has taken his place, they told me. And 'he' is often not a 'she.' Gone are the whisky bottle and the corn-cob pipe, the ribald jest and the colorful opinion which made the old-time country newspaper shop so picturesque and glamorous. It is a far different kind of place by comparison. It was a Nebraska literary operator, on the Cook Courier, who was crowned Queen of the Johnson County Fair last fall. No tramp printer ever achieved anything like that."

"Gentlemen," I said when we had got that far, "I have been breaking my heart by degrees ever since I have foregone my knowledge of my lifelong illusions into a cocked hat. You have thrown romance into the hellmouth, as it were. You have turned what was once a glorious, irresponsible adventure into a sordid, commercial, sordid, money-making business. I can survive those revelations, as I have survived the type looks like Santa Claus. But do not shatter my last remaining link with the romantic memories of rural journalism as I know it in my youth. Do not, I beg of you, do not tell me that the patent inside is dead!"

My appeal moved them, though not precisely to tears. They hastened to assure me that the patent inside still lives. The patent inside is its younger brother, the boiler plate of beloved memory, still stands by in country newspaper shops. Four or five thousand small-town weeklies still buy their paper stock printed on one side with a variety of news-features, pictures, fiction and the like, calculated to appeal to the rural reader—but with this main difference from the old days: That the editor has the privilege of selecting just what shall be furnished in his ready-print service instead of taking whatever the haughty magnate who used to demand their money C.O.D. at the express office, choose to send him, advertisements and all. Or he can buy the same sort-of material in better plate, column-wide stereotyped strips of type metal, pictures and reading matter, which he can put in his own press and print from. And 20 per cent or more of country weeklies now have their own stereotyped plates, purchased or leased, with which they can cast their own plates from paper matrices furnished by letter-tiers or obtained from syndicates which supply not only editorial feature matter, but also the copy for newspaper to give its local merchants as attractive advertising display as one can find in the city papers.

Such co-operative services make it easier than ever for the ambitious young man to establish a creditable country paper on small capital. Credit for equipment is extremely liberal; the country editor is no longer a financial pariah. Country papers are still started on shoestring, without

# Christie's Fig Bars

Simply scrumptious . . . Christie's Fig Bars. Wholesome, too, and especially good for youngsters because of containing no sugar. Made with genuine Smyrna figs—pure and unadulterated.

In the store or on the phone, always ask for

## Christie's Biscuits

The Standard of Quality Since 1853.

a printing plant at all, getting the paper printed in the nearest good-sized town. If the editor-publisher is really in love with his job and is willing to hustle hard for local news and advertising, he has a better chance than ever to establish himself in a prosperous business. Bert Mills and the rest assured me. And the established country weekly body is so profitable and so profitable that B. Franklin Simms would turn over in his grave if he could hear how things have changed.

I guess that novelist is crazy like a fox.

## RICH, RED BLOOD A REAL NERVE TONIC

The Source Of All Nervousness Is Weak, Watery Blood  
Many people, both men and women, find themselves run down through overwork, or anxieties. Such sufferers find themselves tired, low-spirited and depressed. Their nerves seem to be worn out and they suffer from headaches and other nerve pains. All this comes from a weak, watery blood.

Doctored the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich red blood. Therefore to relieve nervousness and run-down health Dr. Williams' Pink Pills for Pale People will be of great service. These pills enrich the blood, which tones the nerves, improves the appetite, gives new strength and spirit and makes him or her despondent people bright and cheerful. Miss Irene Denne, R.I.C. No. 1, Washburn, Ont., tells what Dr. Williams' Pink Pills did for her as follows: "I suffered for a long time with my nerves and a generally run-down condition. I grew so weak that I had to lie in bed a part of every day. I could not carry any work and was taking medicine all the time, trying one medicine after another. I was advised to try Dr. Williams' Pink Pills and I have reason to be thankful that I acted on this advice, as this was my first real relief. These pills gave me relief, and in a comparatively short time restored me to the blessing of good health. When I think of the marvelous good these pills did me, I can most highly recommend them to all weak, nervous people. If you are at all run-down or weak, you should begin at once to take Dr. Williams' Pink Pills and you will soon be well and strong. These pills are sold by all medicine dealers or can be bought by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont."

To Improve Cattle Industry  
Some 32 municipalities in Saskatchewan are in process of eliminating all grade sires and establishing themselves as purebred sire areas under the Act in force in this province. It has been estimated that if all the calves in Saskatchewan were bred by good purebred bulls it would add \$10,000,000 to the value of the cattle in the province.

## The "Flu" LEFT HER WITH A VERY WEAK HEART

Mrs. Benita Denne, Pleasant River, N.B., writes: "I have suffered with the 'flu' a few years ago. I was left with a very weak heart. I was unable to go about, and could not do my housework. I would get dizzy spells and would have to go to bed. I could not sleep at night as the least little noise would wake me up. I tried different kinds of medicine, but they seemed to do me no good. A friend recommended

MILBURN'S HEART NERVE PILLS  
I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c a box at all druggists and dealers, or send for full particulars to The T. Milburn Co., Limited, Toronto, Ont.

## SUNDAY SCHOOL LESSON

MAY 20  
JESUS TEACHING IN THE TEMPLE  
Golden Text: "He taught them as one having authority."—Matthew 7, 29.  
Lesson: Mark 12:13-14.  
Devotional Reading: Psalm 119:1-8.

### Explanations and Comments

The Captious Question In Regard To Tribute, verses 13-17. The Herodians were a small political party who were partisans of Herod. A few of the Pharisees sympathized with the Herodians, but most Pharisees hated them as cordially as they did the Sadducees, yet they united with Herodians and Sadducees in a plot to snare Jesus. The men whom they sent to Jesus prefaced their remarks by saying that the question they were about to put to him was a trap, and one to answer, but they knew that He was not afraid of consequences: "Thou regardest not the person of men, but of a truth teachest the way of God," they said. Thus would they flatter Him and put Him off His guard.

Then they asked their question, "Is it lawful to give tribute unto Caesar, or not?" The tribute, literally census money—that is, poll tax—was paid by every Jew. It was inquisitorial, followed a careful taking of the census, in which every man was obliged to report his family, his property, and his income, and was extremely odious to the Jews, who counted it a badge of their national degradation. Its payment was related by some, especially among the Galileans, not only on political, but also on religious grounds.—Lymann Abbott.

The Pharisees asked their question with malice of forethought. If Jesus said "Yes," He would bitterly antagonize the people, and if He said "No," He could accuse him of treason to the Roman government. And, indeed, two days later they falsely said to "Plato," "We found this man perverting our nation, and forbidding to give tribute to Caesar," Luke 23:2.

Shall we give, or shall we not give? Jesus put the question plainly. Here was their alternative: pay tribute to a foreign power where emperor worship prevailed, or return and remain loyal to God. They thought that whatever answer Jesus made it would be a trap. But Jesus denied there was an alternative; both were aspects of one duty. He would teach contempt of the established government and disobedience to law. Nor would he teach disloyalty to God. Jesus knew that the Pharisees were quick-sighted through the purpose of their snatching words. "Why make ye trial of Me?" He asked, as if called for a coin, a denarius on which was graven the image and name of Caesar. The coin represented Rome's services to the people governed, as well as Rome's power and authority. "Whose is this image and superscription?" He asked. (A small boy in Australia in telling the story gave it this): "He asked them to show him a penny, and when they gave it to him he said, 'Whose miserable superscription is this?'"

They replied, "Then said Jesus, 'Render unto Caesar the things that are Caesar's.' Render, give back; render, give. From Caesar and from Caesar's money they received something in return. They were accepting the services of Caesar, and when they gave it to him they must render an equivalent."

Useful In Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles and should a cut, contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Farmer—"Hey, what did you do those pups?"  
New Hand—"I drowned them. I thought it would be a merciful thing to do, seeing they were all born blind."

## New Industry In Winnipeg

One of the largest United States manufacturers of paper bags used in the cement industry is likely to locate in Winnipeg shortly, according to information received by the Industrial Development Board. Officials of the company have been in Winnipeg recently consulting with the Board as to the suitability of this location, and there is strong likelihood of their approving it.

## Sore Feet.

Bathe feet in Minard's and warm water, rubbing ointment into aching parts. Soothing and relieving.

**HOWARD'S**  
"KING OF PAIN"  
**NIMEN**

Laywer: Don't you think you are straining a point in your explanation?

Witness (a cook): Maybe I am, but you often have to strain things to make them clear.

There is no poisonous ingredient in Holloway's Corn Remover, and it can be used without danger or injury.

Aids to navigation will be established along Hudson Straits this summer preliminary to the opening up of this route from Port Churchill.

## How Much Water Should Baby Get?

A Famous Authority's Rule  
By Ruth Brittain

Baby specialists agree nowadays, that during the first six months, babies must have three ounces of fluid per pound of body weight daily. An eight pound baby, for instance, needs twenty-four ounces of fluid. Later on the rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day; and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Giving baby sufficient water often relieves his feverish, crying, upset and restless spells. If it doesn't, give him more. And know that the cause is one of these and other ills of babies and children such as colic, cholera, diarrhea, gas on stomach, and constipation, sour stomach, loss of sleep, underweight, etc., leading physicians say there's nothing so effective. It is purely vegetable—the recipe is on the wrapper—and millions of mothers have depended on it in over thirty years of ever increasing use. It regulates baby's bowels, makes him sleep, and gives him the ability him to get full nourishment from his food, so he increases in weight as he should. With each package you get a book on Motherhood worth its weight in gold.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the package so you'll be sure to get the genuine. Forty cent, bottles contain thirty-five doses.

For Smart Occasions  
A delightful printed Pussy Willow silk dress, with fashionable tiered skirt, that can be worn for street, yet is dainty enough for any smart afternoon. The long-waisted bodice, with square neckline and applied bands forming deep V at front, of plain harmonizing silk crepe, slenderize the figure. Design No. 807 is attractive and serviceable, made of wool crepe, two surfaces or crepe/taffeta or georgette crepe. Pattern is obtainable in sizes 16, 18 and 20 years, 36, 38, 40, 42 and 44 inches bust measure. Size 36 requires 4 1/2 yards of 40-inch material with 3/4 yard of 1 1/2-inch ribbon. Price 25 cents the pattern.  
Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

W. N. U. 1735

## CLASH BETWEEN JAP TROOPS AND NATIONALISTS

Shanghai.—The Japanese 28th brigade under General Sotomura, bore the brunt of fighting between the Japanese and Nationalist forces.

General Sotomura's brigade came into contact with a force of southerners at Kaitan, about 15 miles east of Tsinan, and disarmed many of them after stubborn resistance.

When Sotomura's forces were returning to Tsinan they encountered a powerful force under General Chen Tiao Yuan. Fighting was last reported still in progress with the result unknown.

Chen Tiao Yuan was formerly governor of the province of Anhwei and commanded the three nationalist armies which succeeded in cutting the Shantung railway April 30 at Ninghsu.

The Japanese were continuing today their attempts to disarm the nationalists as rapidly as they came in contact with them in the entire Tsinan area. The Mikado's forces had occupied the bridge across the Yellow River at Tsinan and other strategic points.

With the exception of the two encounters with Sotomura's forces most of the fighting was of a minor nature.

## Looking For New President

University Of Alberta Will Seek Strong Man To Fill Vacant Position

Edmonton.—Hon. Perren Baker, minister of education, will leave shortly for points east on a tour of investigation that will have as its objective the location of likely appointees to the vacant presidency of the University of Alberta.

He will go right across the Dominion, to the Maritime provinces, and may also cross the line into the Eastern and middle states.

It has not even been decided yet that the new university president is to be a Canadian, but other things being equal, the preference will naturally be given to a man Canadian-born or at least Canadian experienced.

## Made Chancellor Of Oxford University

Viscount Grey Of Faldoen Elected By Acclamation

London.—Viscount Grey, of Faldoen, former Secretary of State for Foreign Affairs, was elected by acclamation to the chancellorship of the University of Oxford in succession to the late Viscount Cave. Apart from the gracious gesture to Viscount Grey the decision to elect him without a contest is generally regarded as an indication of the university authorities' desire to separate the chancellorship from its association with politics.

Viscount Grey was foreign secretary from 1905 to 1916.

## Arrives In Big Plane

Ottawa.—Captain Alfred Loewenstein, Belgian multi-millionaire, arrived at Linderberg Field here in his trimotored monoplane, the largest machine Ottawa has ever seen. Captain Loewenstein and Mrs. Loewenstein were the guests of Premier Mackenzie King at dinner, at Laurier House. He declared emphatically that his visit to the capital was merely a social call.

## Italian Naval Program

Rome.—A new Italian naval building programme was announced by Under-Secretary Bissolati in the senate recently. Bissolati said the new programme complements preceding ones and provides for the construction of two 10,000-ton cruisers, four destroyers, and four submarines, for which contracts will be let this month.

## Man Power Plane

New York.—A model aeroplane, the motive power of which is obtained by hand as a boat is rowed, has been demonstrated by Lehman Well, who now plans to construct a man-sized machine on the same theory. The model in test rapidly took the air.

W. N. U. 1733

## Would Follow British Plan

United Farmers Of Canada Have Scheme For Co-Operative Stores

Winnipeg.—An elaborate scheme for the organization of co-operative societies on the British model is now being drawn up by the United Farmers of Canada, according to W. M. Thrasher, secretary of the Saskatchewan section of that body. It is hoped to lay the foundation of a system of stores which will ultimately extend all over the West.

The central body in Canada will, it is understood, have the hearty co-operation of the great British Wholesale Co-operative in Manchester, which serves millions of customers in hundreds of stores all over the United Kingdom.

Share capital in small units, Mr. Thrasher stated, will be subscribed to start stores, and safeguards will be erected to prevent any one shareholder from becoming predominant. Though called share capital, the stock to be issued will virtually be debentures in nature, since it will receive only a fixed return on the investment.

## May Consult League

Possibility Of China and Japan Submitting Dispute To Geneva

Geneva.—A protest from China to the League of Nations over Japanese military action in Shantung is a possibility, Cheng Loh, Chinese member of the League Council, said to the Associated Press correspondent. He adds he was awaiting instruction from his government at Peking.

Cheng Loh, who is now in Paris, but is coming to Geneva for the meeting of the council in June, said over the telephone that both Northerners and Southerners have the same view concerning the attitude of the Japanese in Shantung. He thought it conceivable that both factions might unite in deciding to submit the dispute to the League of Nations.

Japan's attitude on the question of referring to the League of Nations the dispute is unknown here. The Chinese-Japanese conflict is regarded in Geneva as cutting straight across the Kellogg outlawry of war proposal.

## New Road To Coast

Project Roads For Northern British Columbia Country

Victoria, B.C.—A new railway route pass through the mountains from the coast to the Peace River and northern British Columbia country was announced by H. M. Tolstet, editor of the Portland Canal News who was here on his way north to Stewart.

"The new pass which has just been located for getting over the Naas and Skeena watersheds to the Finlay basin, is 3,500 feet lower than the original pass mapped out by Sir Donald Mann," Mr. Tolstet said.

"It will mean a much easier railway route to the coast."

## Would Have U.S. Mediate

Suggestion Made That Action Be Taken To Prevent War Between Japan and China

Geneva.—The peace purposes of the League of Nations will be served if Washington should wave a magic wand and prevent war between Japan and China, said a league authority discussing the possibilities of friendly mediation either by the United States Government or by the league.

Geneva circles appear confident that some soothing influence will be exercised to prevent the Chinese-Japanese conflict from growing worse. The league is ready to act if asked.

## Alberta Mounted Rifles

Ottawa.—"C" Squadron, 2nd Regiment the Alberta Mounted Rifles at Nanton, has been reallocated at High River, Alta., the department of national defence has announced. A regional badge of revised design has been authorized for the Saskatchewan Light Infantry, Saskatoon, Sask.

## Governor Leaving Hong Kong

Hong Kong.—Sir Cecil Clementi, Governor of Hong Kong, has left for England. He is returning via Canada. Sir Cecil Clementi has been governor of Hong Kong since 1925, and has been in public service in China for many years.

## PROMINENT FINANCIER

Alfred Loewenstein, financier, now in Canada, who, representing one-third of the ordinary stock of the company, is reported to be seeking to obtain control of British Traction Co., one of the world's largest public utilities.

## Passports Required For Short Vacation

Week-End Tickets To Europe Cost Britishers \$10.00 Extra

London.—The British Easter holiday crowd of "trippers" to the Continent was thrown into consternation by being required to pay \$10 extra for their annual spring outing abroad—for the first time since the war passports were required.

Since 1919 a special facility had been in force under which persons were allowed to buy week-end tickets to certain French and Belgian ports, available from Friday to Tuesday, which allowed the holders to travel without a passport. Henceforth passports will be required.

Persons who enquired at the French consulate-general in London, learned that the British authorities had never consented to grant a reciprocal advantage to French and Belgian nationals, and the French Government now intended to make the abuse of this facility by one individual an occasion for withdrawing it altogether.

## Says Alberta Bill Is Given Support

Hon. C. A. Dunning Has Every Hope That It Will Pass

Edmonton.—Hon. Charles Dunning, Federal Minister of Railways, telegraphed Premier Brownlee in reply to the latter's request for co-operation in getting the Northern Railway extension through the house that he has every hope of the bill passing. The Government has done everything possible, he says, to facilitate it and extra time has been given private bills after the House had unanimously agreed that Government business should take precedence. Mr. Dunning adds that talking-out tactics on private bills have become very prevalent during the present session.

## British Boys Study Agriculture

The above shows a splendid group of British Public and Secondary school students who have just arrived at the Macdonald Agricultural College. Recruited by the Department of Colonization and Development of the Canadian Pacific Railway, these young men will pursue a two years' course at the College. During the summer months they will work on farms where places have been selected for them. On completion of their studies they will engage in various branches of Canadian agricultural operations, by which they will be accustomed to Canadian methods.

The scheme under which these students were brought to Canada has now entered upon its fourth year of operation and the College authorities are thoroughly satisfied with the soundness of the plan. At the extreme left of the picture is Dr. H. Barton, Dean of the Faculty of Agriculture, Macdonald College, and at the extreme right is Mr. L. H. Hamilton, Instructor in Agriculture, who is especially charged with the supervision of the students under this particular scheme.

## New Money For Ireland

London Mint Is Striking Coins For Free State

Dublin, Ireland.—A few months hence the people of the Irish Free State will begin to handle new coins intended to displace British coins in local circulation. The contract for minting was given to the London Mint, which has submitted Dublin the first striking and now will proceed with production, beginning with silver coins.

The new coins will be of the same value as British coins up to half-crowns, and no higher denomination will be coined at present. Provision has been made for a proportion of silver higher than that in British coins, in order to counteract any possible suspicion of the new coinage. The sixpence and the threepenny piece will be of the size of the British silver sixpence, but without any milling. Bronze coins also are being struck, but it will take a little longer to substitute these for the corresponding British coins.

## Urge Acceptance Of Canadian Currency

Washington Asked To Sanction Its Use In U.S. Centres

Ottawa.—The Journal in an editorial says:

"Due to a letter addressed by A. H. Jarvis, of Ottawa, to the United States consul-general here, steps have been taken by the State Department at Washington, which may result in the future acceptance of Canadian currency at all centres across the line."

"Hesitation on this score on the part of Americans in many districts has long been a source of inconvenience and annoyance to Canadian visitors to the U.S. Although we are Uncle Sam's best customer and despite the fact that the American dollar is accepted without question over here, there are many places and business houses and hotels across the border where the Canadian dollar is no more regarded than if it were the paper of Soviet Russia."

## British Bankers Worried

Over Flood Of American Capital Which Is Entering Canada

London, Ont.—Drive fears are entertained by British bankers concerning the flood of American money which is entering Canada, according to Major Hume Cronyn, London financier, who has just returned from a trip to England and the Riviera.

"It is impossible for us to secure money in England for anything like the rates at which we can secure it here," said Major Cronyn. "This is due largely to the interest of the U.S. in Canadian securities. The result is that British capital is naturally prevented from coming in to any great extent and the fear is felt in Britain that the new alignment of money power in Canada will have a bearing on the future relations of the Empire. I heard this referred to in England as a menace."

## SASKATCHEWAN OLD AGE PENSION PLAN OPERATIVE

Ottawa.—Hon. Peter Heenan, Minister of Labor, signed on behalf of the Dominion Government the agreement with the Province of Saskatchewan for old age pensions.

The cabinet had passed orders-in-council authorizing Mr. Heenan to sign the agreement and endorsing the plan of administration proposed by the province.

The agreement was signed on behalf of the province by Hon. C. M. Hamilton, Provincial Minister of Agriculture, under whose jurisdiction the pensions scheme will be operated by the Child Protection Bureau.

The signing by Mr. Heenan was witnessed by Premier King and a number of his colleagues from Saskatchewan.

British Columbia has been paying old age pensions since last September and had disbursed about \$200,000 to the end of March, the Federal Government having re-imbursed the province for half this amount.

Saskatchewan will be the second province to actually begin old age pension payments.

Manitoba has passed the necessary legislation to take advantage of the Dominion Act, and it is more than likely that payments will begin there some time during the summer.

It is expected that an agreement with the Yukon will be made very soon.

## Plan Meets Opposition

British House Discusses Cold Storage For Imported Meat

London.—Speaking for the government in the House of Lords, Lord Strathclyde, minister of agriculture, promised most carefully to consider a suggestion that all refrigerated meat imported into Great Britain from countries where the foot and mouth disease is prevalent should be placed in cold storage at the port of landing for three weeks.

Lord Kylsant, in opposing the suggestion, pointed out that 2,048,000 tons of meat were consumed in Britain in 1927, of which 925,000 tons were imported chilled beef of a quality almost equal to the best home-killed beef. In order to secure imported meat in a satisfactory condition, however, it should be available in Britain within 21 days after being shipped.

If chilled meat had to go into cold storage for three weeks on arrival, he said, its value would be considerably reduced as it would have to be frozen. The result would be that the importation of chilled meat would cease and nearly half the people of Great Britain would have to consume frozen meat of an inferior quality and pay a higher price for it than they did at present.

## To Speed Mail Delivery

Cunard Steamship Line May Use Airplanes For This Purpose

Montreal.—To further speed up delivery of mail from the British Isles for Canada, it is understood that the Cunard Line in Liverpool have been considering a scheme whereby their ships to the St. Lawrence will each carry an aeroplane to be released when the Gulf of St. Lawrence is reached, the plane to take important mail either to Rimouski or to Quebec.

Officials here state they know nothing definite of the scheme yet, but say that it is quite feasible, as it is occasionally being carried out by ships on the New York service.

At present there is complete air mail chain from Rimouski to Toronto, operated by the postal department.

## Amend Criminal Code

Ottawa.—The senate rejected the House of Commons bill amending section 96 of the criminal code by a vote of 32 to 22. This section makes it unlawful for any person or association of persons to conspire to use force to bring about changes in the governmental, industrial or economic conditions of the country, and gives certain powers to public officers to deal with violations of the act.

## Trout and Salmon Await Anglers' Flies

With winter snows dispersing rapidly and ice dissolving into lakes and streams; with the rising of sap and budding of trees, memories of anglers awaken picturing streams where one would wish to fish, days

"When even the deep blue heavens look glad,  
And gladness breathes from the blossoming ground."

The waters of Nova Scotia, New Brunswick, Quebec and Ontario have all their devoted followers waiting for the ice to disappear. These anglers are always eager to try new fishing grounds, and they will have new waters this year, according to Wm. Barber Haynes, writing in "Outdoor Life and Recreation." The latest bid for the favor of the sportsman is the opening of part of that famous salmon river, the Restigouche, to any sportsman who can pay a sum for a day's fishing. Heretofore, it has been impossible for anybody to fish the Restigouche unless he rented fishing water for a term of several years. Now the province has made it possible for men in ordinary circumstances to put up money enough for the realization of anglers' dreams—a week's fishing for the salmon of the Restigouche in New Brunswick.

The season for salmon in New Brunswick is from May 24 to September 30. In the Restigouche River and its tributaries, such fishing is permissible from April 1 to August 15 only; the limit is 20 per week. The salmon season in Nova Scotia is from February 1 to August 31.

Quebec's trout streams are many and widespread, and are easily reached making them deservedly popular both with Canadian and American fishermen. Satisfying sport is to be had in the streams in the Lake Edward district north of Quebec City. The Province of Quebec has a wealth of attraction for the sportsman. No portion of

the North American continent is more richly endowed with fish and game. The innumerable rivers, streams, lakes and great stretches of forest offer an almost bewildering selection to the man planning a hunting, fishing or canoeing trip. The trout season in Quebec province is from May 1 to September 30 for speckled trout, and from December 2 to October 14 for the lake trout.

Ontario's most celebrated trout country embraces rivers and streams north of Lake Superior whose names many anglers are already familiar with. In this section special bungalow camps are at your service, operated by the Canadian Pacific Railway, they afford every advantage of an outdoor life just slightly lightening the hardships especially for those who wish to have greater comforts than a tent and camp outfit affords. The season here opens May 1. Distant fields are always green, and distant streams appear more green, while pools grow darker as imagination pictures fishing days in spring.

## Here and There

(68)  
Actual sales of Canadian Pacific Railway farm lands for the first three months of the year have been double those of the corresponding period of 1927. Enquiries for farm lands generally have increased in the same proportion.

Quebec, Quebec.—The mineral production of the Province of Quebec for the fiscal year ending June 30, 1928, will be well in excess of \$30,000,000 if the activity continues according to a statement from the Provincial Department of Mines, just issued.

Saint John.—The Maritime Provinces can find a good market in South and West Africa for their manufactured and natural products, according to D. J. S. Tyrer, who recently returned from there. A vast trade, he claimed, could be worked up in salt fish.

Vernon.—For the first time in the history of bee-keeping in British Columbia a bee-keeper in the Okanagan Valley has exported a full carload of honey from his own hives. His 250 colonies gave him an average of 175 pounds of honey per colony.

Ottawa.—A survey will be made this year for a Canadian air mail route between Montreal and Winnipeg. This will consist of determining the best routes and locating landing fields. Recent announcement of four air mail contracts between points in Eastern Canada forecast more extensive operations along this line at an early date.

Midland, Ont.—For the first time in the history of this progressive town, a through Canadian Pacific train left here early in May for Toronto, and the first C. P. R. through train arrived from Toronto later in the day. A bottle of champagne was broken across the fender of the C. P. R. locomotive as it pulled out of Midland.

Skiing in July and August will be a prominent feature of the combined winter and summer camp to be operated in the Canadian Rockies under the shadow of Mount Assiniboine by Marquis N. de la Alibiz. The winter sport is made possible by the fact of a huge glacier that runs down the slopes of the mountain. Summer sports of variety will also be possible at the camp, which is one of the beauty spots of that part of the Rockies traversed by the Canadian Pacific.

Toronto.—Premier G. H. Ferguson announces that the Government has signed a contract with the Canadian Pacific Railway for the supplying of two additional cars to be used as "travelling schools" in the outlying districts of the province. The cars will be equipped in Winnipeg and both will run out of Fort William, operating between that city and Superior Junction. At present two cars are in operation, both in Northern Ontario. Not only children of rappers and railway workers, etc. receive instruction in these travelling schools but blind classes are trained for education.

### Send Coupons In.

Wheat Pool members should arrange to send their delivery check and coupons to the head office of the Wheat Pool, Calgary, at once. These coupons must be in the office before a second payment can be made. We strongly urge members to see that their coupons are sent in.

#### CHAPTER XXIV.

It was at Fort Simpson, in November, on his way out, that Jack Doran heard of the war. They had floated down the Nehanni River on a moose-skin barge to the Liard, and down the Liard to the MacKenzie on a spruce scow, arriving in Fort Simpson one raw November day when an icy wind from the North gave warning of the freeze-up. They had brought with them a few furs, which George, the half-breed guide, had got with his trap-lines, and from the sale of these they hoped to be able to buy supplies for the home journey.

Their summer had been full of adventure. They had seen the leaves come on the trees, the flowers bud, and bloom and fade, the leaves fall, and now the lowering clouds of November driven by the cold winds; but their bags full of gold quartz to show what they had found, and their little heap of dirt carried in chamol bags and glass phials, they were elated and confident.

Jack, with all the eagerness of the amateur, had been full of enthusiasm going in, and in the washing of gold from the sand of the river he had enjoyed endless delight. To see the glint of yellow gold in the black sands at the bottom of a pan fired his imagination. Keith had complimented him on his success in panning.

"She's gettin' better all the time," Keith had said, "so we are gettin' closer to the deposits." He had a map of the country showing the exact spot where the claims would be staked. "You'll have some nuggets to bring home to that new wife of yours that will make her eyes pop out of her head."

It was in September they reached the place, and Keith announced the object of their search achieved. They staked their claims and gathered

some rich pieces of quartz to bring back with them. Keith was exultant, and even Geo Joe, the half-breed, grew gaudy with the prospect of riches. He was going to have three cars and a colored driver in a gray uniform!

Keith had the plan for mining all arranged. He showed them where the sluices would be placed, drawing a diagram to show the angle at which they would be set and how the riffles would be put in the bottom. He would bring the water in a pipe-line from farther up the river, and throw it against the banks of gravel in powerful jets. At the falls, up the river he would generate the electricity to run a stamp mill, where the crushed rock would be reduced to powder and passed through a sieve, and the gold collected on copper plates. "You'll see a bigger trick in this field than there was in ninety-eight," he assured his eager listeners.

The return journey, lacking the stimulus of novelty which had kept them from discouragement going in, was toilsome and depressing. Their way lay through a gloomy, barren country, and the weather was cold and wet. The shortening days and lengthening nights, too, were unfavorable to travelling. But at length, ragged, unkempt, unshaven and dirty, they arrived in Fort Simpson just before the freeze-up.

The good-natured proprietor of the store bought their furs outfitting them, giving them the news of the war as the transactions went on. "I wish I was younger, and I'd be off," he said, "I'd like to do a bit of fighting before my time comes to step off."

"What is it all about?" Jack asked, as he tried on a pair of long boots. "Well, I'm not clear on that, but sure it's a poor war that ain't better than no war, and you see war has to come once in a while to stir up the surplus population. We breed too fast—ain't that the truth?—so it's either pestilence, war, or famine, and war's a lot more fun than the other two!"

Jack looked at him indignantly. "How many children have you?" he asked. He had noticed several little half-breeds around the store, moccasined, footless, beady-eyed, looking inquiringly at the strangers.

The storekeeper did not resent the question at all. "I think there are six boys big enough to go," he said. "Three of them are out on the trap-lines and haven't heard about it yet, but the other three are going out. Their mother is cuttin' up a little, but she'll calm down; she's a good woman. We have eight others comin' on. It's a good chance for the boys to see the world."

The war did not relate itself in any way to Jack Doran until he arrived at Peace River. He had one consuming thought in his mind now, and only one, and that was to get to Eagle Mines as soon as he could, and to Helmi. He went at once to the telegraph office and sent her a wire. "Mrs. Jack Doran, Eagle Mines:—Back safe, expect me in a week. Love, Jack."

Peace River was alive with excitement. Homesteaders waited the streets waiting for the train to take them to Edmonton. There was some delay, owing to trouble on the Judith Hill.

Jack, Keith and George got a room at "The Peace," and soon had the grime of travel washed away, and went to the dining-room for supper. Men in uniform sat at a table, eating noisily and drinking. The room was full of excited talk.

There was a meeting in the hall that night, advertised by a huge red poster in the stores. It said the Major Gowsett and Pte. George Crowe would address the meeting. Pte. Crowe had been wounded at Mons and been invalided to Canada. There were flags in the dining-room, and on the way in that day they had noticed flags flying from the houses and stores, fluttering bravely in the cold wind.

To the hall they went at eight o'clock, and were met at the door by women selling red roses for the Red Cross. A hand jinxie was playing "It's a Long, Long Way to Tipperary." To Jack it seemed as though he had come back to a new world, a nervous, panicky, high-strung world, abounding in new phrases, new emotions. Fresh from the solitudes of the North, he could not at once grasp the meaning of it all.

Pte. Crowe, a pale lad, standing with a crutch, spoke first, and spoke simply and well. His superior officer

Exacting cup tests carried out in their blending rooms insure for a Red Rose Orange Pekoe Tea a quality that is absolutely uniform. This supreme tea comes to you at its peak of freshness and flavor because it is packed in aluminum—the only package worthy of its fine quality.

had chided him for the mildness of his address at Spirit River the night before. "You've got to put more thunder into it," he said, "these people want color and action. Tell them about the children you saw with their hands cut off."

"But I didn't see any," protested the lad.

"Well, you heard of them—you might have seen them. Speed up a little—lay it on thicker, or you'll never get recruits."

But again the boy told just what he had seen—the mud—the hardships—the indescribable carnage—the comradeship and heroism of his companions of the trenches. There was no hatred, revenge or bitterness in his heart, only a great bewilderment.

He appealed on behalf of his comrades who were so brave, so cheerful, so fine—yet willing to die. Jack's heart was torn with the pity of it. Worst of all was the boy's switching hands, never still a moment. What horrors that boy must have come through! His lips had quivered as he spoke, like a child's about to cry. "Don't leave those boys alone; send them reinforcements. The more we can send the sooner it will be over." That was the message of the quivering lips, coming from a heart that was clean and brave. He could take without apology, could Pte. Crowe, he could ask any person to make a sacrifice and not ask them to do more than he had done.

Major Gowsett, who arranged the program, had left himself for the last. In the ordinary affairs of Major Gowsett believed in being first, but, understanding what he would have called "mob-psychology," he believed the last speaker had the best chance. He began by damning the Germans with great spirit, reviewing their history, military aspirations, and their life. He showed that they threatened the whole world. Major Gowsett had not been further than Boulogne during the present war, but one would never know it from his speech. It reeked with the stench of battle, it abounded in personal incidents. He dragged his listeners into shell-holes, dug-outs and across "No Man's Land"; he specialized on the treachery of the Germans—the hatefulness of their women—the bitter hatred they had instilled into their children. He had lived with them, he said, and he knew. It seemed that he and Lord Roberts knew the war was coming, but England had not listened to them.

(To Be Continued.)

#### Speed Up Construction

German Contractors Use Furnace On Wheels To Dry Walls

Homes and apartments are no scarce in Berlin, Germany, that architects and constructors think up every conceivable device for hastening the process.

Their latest quick service help consists of a furnace on wheels which is calculated to hasten the drying process in buildings under construction. It is placed outside the house or apartment building, and furnaces are laid from it into the room to be dried. The heat is conducted just as though a hot air furnace were in operation in the basement.

In this way, it is estimated, construction is hastened by many days, as the painters and decorators can get busy much earlier.

Worms are encouraged by morbid conditions of the stomach and bowels, and to subvert Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No insecticide parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine, most beneficial to the young constitution.

Next month another 1,000 head of buffalo will be shipped from the Canadian National Park at Wainwright to the big reserve north of the Peace River. Overstocking of the Wainwright Park renders this necessary.

Minard's Liniment for Toothaches.

#### Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

#### CHILDHOOD DISEASES AFFECTING TEETH

It occasionally happens that teeth erupt faulty in shape or with the enamel pitted and stained, and you wonder what has caused it.

Now a very probable source of this trouble is a general disturbance from some constitutional disease associated with high temperatures, such as, scarlet fever, measles, or chicken pox. Occasionally this disturbance is so great as to totally destroy the tooth germ, but more often it merely affects the tooth structure as described above.

But there are two general diseases that, in particular, affect tooth structure and tooth eruption. Of these rickets is a disease of faulty nutrition and it is worthy of note that it is a disease not only of the very poor who are denied proper and sufficient food, but of the rich, who have an abundance of food but of an improper kind.

The characteristic affections of the teeth from rickets are these: the deciduous teeth erupt late and, in the more extreme cases, there is a general deformity of the skull and jaws; moreover, these teeth are lost early, whilst the permanent teeth in turn erupt late; the result is, faulty or mal-occlusion. Moreover, the teeth themselves are structurally affected, being bluish, sparse and somewhat tapering.

The other disease, more or less specifically related to tooth mal-formation is tuberculosis.

A child suffering from tuberculosis will erupt both the deciduous and permanent teeth early; but the root of the deciduous tooth is not absorbed as it should be, with the resultant mal-position of the succeeding permanent teeth.

It is perhaps easier to understand why these diseases should injuriously affect tooth structure as they do, when you remember that the teeth are in the formative stage through early childhood, and hence are readily liable to influences of a disturbing nature.

**Asthma Doesn't Wear Off Alone.** Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gathering a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's, Asthma Remedy taken early, will prevent incipient danger from becoming chronic and saves hours of awful suffering.

#### Sand and Gravel Pits in Canada

Natural deposits of sands and gravels occur in all provinces of Canada, and as a consequence of this wide distribution, the low value of these materials, and the ubiquitous demand chiefly for filling and structural purposes, there are a very large number of pits operated in Canada.

**MOST** people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word *genuine* printed in red? It isn't the *genuine* Aspirin without it! A drug-store always has Bayer, with the proven directions tucked in every box!

Oh, if the selfish knew how much they lost!

What would they not endeavor, not endure, To imitate, as far as in them lay, Him who His wisdom and His power employ In making others happy?

—William Cowper.

The most delicate and the most sensible of all pleasures consists in promoting the pleasures of others.

—La Bruyere.

Happiness is not perfected until it is shared.—Jane Porter.

Neuralgia succumbs to Minard's Liniment.

The Arabs were the first to discover the art of refining sugar, with the Egyptians a close second.

Meat canned in tin 81 years ago has been opened in England and found wholesome.

Can easily make a Gum-Dipped Tire showing one cord unretained into 15 strands. Every fibre of every strand is insulated with rubber.

#### Why Gum-Dipping Increases Tire Life

A tire in use is being constantly bent backwards and forwards by road action. Such movement generates friction and heat that has a deteriorating effect unless the tire is built to withstand it.

In the carcass of a Gum-Dipped tire there is less friction to generate heat because Gum-Dipping puts a coating of new live rubber around each separate cord that keeps it from rubbing against the cords that lie next to it. It stays cooler and therefore lasts longer.

#### HERCULES

PERMANENT BUILDING PAPER

CUT IT—it doesn't tear easily

There's no denying that the most careful carpenter doesn't handle his tools with the dainty movements of a dentist.

Consequently he will appreciate a building paper which allows him to throw careful handling to the winds and work rapidly without fear of tearing. Hercules Permanent Building Paper is tough. Tearing or cracking in using is unheard of. Carpenters prefer it because it is easy to use.

Hercules—in three grades, a light, xx medium, and xxx heavy, is wind proof and damp proof.

Send now for samples and prices.

### Stony Plain and District.

This is ASCENSION DAY.

Fred Schulte left for Wabamun Lake, to resume fishing operations on the opening day May 15th.

Space did not permit, this week, of the printing of a notice from the authorities that the provisions of the V. & H. T. Act regarding the regulating of traffic, will be enforced forthwith in Stony Plain and district.

In the District Court, in Edmonton, on Friday last, the case of Jacobs v. Armbruster was heard. This was a suit brought by Mr Jacobs against J Armbruster for \$500 as payment for a well bored on the Armbruster premises. The claim was dismissed. W R Howson for defendant Armbruster.

Invitations have been issued for a dance given by the graduating class of Misericordia Hospital and School of Nursing, on Tuesday next, May 22. Among the local graduates is Miss Elizabeth Kulak.

Today, the Feast of the Ascension, Rev Father Keenan offered Holy Masses at Duffield and Carvel.

A large party attended the dance Saturday evening at the barn of Mr Pete Kulak, Rosenthal.

At the hospital in Onoway, on Sunday, May 6th, to the wife of Mr Charles Poemerl, a son.

Owing to a typographical error in the town's financial statement printed in The Sun last March, the cash balance in bank was given as \$456. This should have been \$1456—one thousand dollars more.

M M Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Friday, June 1st. See him and see well.

Meredith Bros. are buying hogs and cattle at Carvel every week.

### Edmonton Beach Notes.

To commence the season at Edmonton Beach May 24th, Mr Barrie is putting on a special half price dance in the new enclosed dance pavilion just completed. The pavilion is very artistic with good floor and overlooking the lake.

The boat livery is showing a splendid display of skills and boats.

A number of tables and benches have just been completed, to accommodate the crowds.

### The Market Report.

### LAUNDRY!

Washing by the Piece. Work called for. Reasonable prices.  
MRS. JOHN SCHMUTTRA.  
4 doors west of St Matthew school.

### Calendar.

May—  
17—Ascension Day.  
24—U. F. A. picnic at Holborn.  
June—  
1—Mecklenburg at Stony.  
3—King's Birthday.  
6—Wednesday's half holiday starts.

### Sporting Notes.

The opening ball game of the season was played Friday afternoon last between two teams from the local School League—St Matthew No. 2 v. Public. St Mat's boys made a runaway game of it, running up a score of 22 to 4 runs for the Public. St Mat's battery, Jac Miller & O Miller; Public, Art Davis & R Lory.

Holborn's ball players motored up to Stony on Sunday, and engaged our local ball team, Holborn winning by 7 runs to Stony's 5. The play was as good as could be expected at an opening game. Batteries: Holborn—Ph Sinner & Combes; Stony—C Lory & C Fuhr. These two teams meet again May 24th.

### U.F.A. Picnic Next Thursday

Arrangements are about completed for the big annual picnic to be given by Holborn U. F. Local next Thursday, May 24th.

The day's show starts with a ball game at 10 a.m. This will be followed by the running-off of a big list of sporting events, which includes foot races, auto races, horse races, and several special events for ladies.

At 1 p.m. a speaker prominent in the ranks of United Farmers will give an address on the principles and purpose of the association. He will be followed by several other speakers of note, who will give short addresses.

The day's entertainment will close with a big dance in Holborn Hall, to the music of a first class orchestra.

Those who have been to a Holborn picnic will not care to miss this one.

FOR SALE, about 18 yards of gravel; cheap if taken at once. J A Barrie, Edmonton Beach.

LOST, Spare Tire and Rim, between Stony Plain and my place. Finder kindly leave at Sun Office or phone R702 Stony Plain.

### Blasting Out the Roots.

The barber had spent considerable time in making all arrangements preparatory to the opening of his new tonorial parlor, including the arranging of the donations of tools, etc., made by friends, as it was pluming himself on having everything complete when his first customer stepped in the door.

The barber had got half way thru his job on the customer when to his dismay he discovered he had not stocked up on powder.

Going to the door, he called to Pete to "Bring some powder."

The friend jumped in his car, hustled home and returned in a short time with a small tin.

You can imagine Moe's feelings when his eye spotted the label on the can "Blasting Powder"

### Spruce Grove News

Good progress is being made by the construction gang on the new elevator for the Northern Grain Co.

On Sunday Rev Fr. Faure, S.J., of the Edmonton Jesuit College, offered Holy Mass at St Joseph's church.

The cream business is picking up so rapidly at present, Mr MacKean is considering putting another truck on the cream route.

Mr Cassin, IHC tractor expert, is making a trip thru this district this week, to inspect the recently purchased tractors, and advise the operators in care of these machines.

### Railway Time Table.

Going east—Every morning at 5.45. Mon., Wed., and Fri. at 6.55 a.m.

Going west—Sun., Tues., Friday at 1.29 p.m. Every midnight at 24.24.

### GENERAL NOTICES.
